## Summary

Results-driven software developer with expertise in MERN stack, Express.js, Node.js, MongoDB, and React. Passionate about building scalable applications and optimizing performance.

## Skills

- Programming Languages: JavaScript, C++, Java
- Web Development: HTML, CSS, Tailwind, Bootstrap, React.js, Express.js, EJS
- Backend: Node.js, MongoDB, RESTful APIs
- Tools & Platforms: Git, GitHub, Postman, Netlify, Docker
- Soft Skills: Teamwork, Problem-Solving, Communication

## Projects

### StaySphere - Hotel Listing Platform

**Tech Stack:** Node.js, Express.js, MongoDB, EJS, Passport.js, Maps API

[Live Demo](#) — [GitHub](#)

- Developed a **scalable** hotel listing platform using the **MVC architecture**.
- Integrated **Google Maps API** to enable location-based hotel searches.
- Implemented **user authentication & authorization** using **Passport.js** with session-based authentication.

### Textify - Real-Time MERN Chat Application

**Tech Stack:** Node.js, Express.js, MongoDB, React.js, Socket.io, Tailwind CSS

[Live Demo](#) — [GitHub](#)

- Built a **real-time** chat application using **Socket.io** for instant messaging.
- Designed a **responsive UI with Tailwind CSS** for a seamless user experience.
- Implemented **JWT authentication** for secure user login and chat access.

## Education

### Bachelor of Computer Applications

Karim City College, Jamshedpur — 2022 - Present

- Relevant Coursework: Data Structures, Web Development, Database Management

## Interests

- Exploring Blockchain technology.
